A LOOK

AT THE YEAR IN REVIEW

Take a look at the year . . . for freshmen, perhaps their first look at the University . . . for Seniors, perhaps their last.

Freshmen invaded the campus early in September preceded only by the boys from fraternity row coming back to scrub and paint . . . Guides assigned to keep the dorm quiet were reported by the freshmen for making too much noise . . . Rush week—when only the most daring or uncaring frat man appeared without a tie and jacket—came and went with only a little confusion over party nights and pledge pins . . . Women settled down—not to study but to a rush of afternoon parties and evening parties with showboats and circuses . . . Class cuts began to add up to skit practice sessions . . . After a day of silence—tears and triumph for pledges.

Mums and alums and Homecoming—and drenching rains turned floats and house decorations to masses of wet paper but didn't dampen the enthusiasm . . . Kris Svensson reigned with poise as queen.

Parking meters climbed High Street and student "protests" cost the town money.

An understatement—"enthusiasm ran high" before the Pitt game . . . parties turned to a pantie raid at Terrace and sorority houses . . . Several studious boys made a pre-game excursion to the Pitt campus leaving mementoes of their visit on the walls of the stadium and returned with kind thoughts about Pitt's athletic director . . . The bank above the drill field was filled with fans as the team left, followed by an exodus en masse of the student body . . . it was a long game and an even longer ride home to "Morguetown."

Reynolds was filled for the appearance of Pearl Primus and the Phi Betes did things up in a big way as Senator Hubert Humphrey spoke at the celebration of the 179th anniversary.

ISA was successfully organized for the first time and took on ambitious projects . . . building the Mountaineer for the stadium, a formal, and sponsorship of "Bernadine"—and advocated a policy of "no politics."

Bigger and better was Mountaineer Weekend with everyone turned out in traditional mountain dress to see the game and Queen Ann . . . we almost had to parade around the stadium but the Morgantown merchants came through with $50 and saved the tradition of marching down High Street . . . Students seemed to have more enthusiasm than before . . . the dance was crowded and carnival gained new life as visitors tried to shave balloons or send telegrams to friends in the dorms.

Mid-semesters came all too soon and a three-day Thanksgiving break was more than welcome . . . overheard conversation: "Don't feel bad about making 40—I got a 19."

It was a long pull to Christmas . . . hours were cheered by Men's Pan and Cadet Hop and presentation of "Caine Mutiny Court Martial." . . . Everyone declined to work on term papers till the holidays . . . Practice began on Christmas carols and the women did a turn about and serenaded the men . . . Parties for children and dates and Christmas spirit filled the air as teachers turned their classes out early for the long trip home.

"Glad to be back but just one more week would have finished that studying" . . . and here are finals already . . . Library became more crowded and houses quieter but the bridge games went on as ever . . . Story is spread about the student who asked to leave 15 minutes after a 3-hour exam began.

Second semester registration seemed just as confusing as ever and even some upperclassmen couldn't remember what degree they were applying for . . . Many got stuck with late labs and Saturday classes . . . Looks of worry and disgust over required classes and seemingly endless forms to fill out—lightened only by the awe and delight in the Senior's eye as he filled out expected date of graduation—June 1956.

Mountainlair's TGIF parties became more popular than ever . . . Four Freshmen welcomed students back with enthusiasm . . . The University became 89 years old on February 7 and received a birthday present from the State Legislature as the bond issue for building new engineering and agriculture schools was passed.

Basketball took over the spotlight and Hot Rod became a favorite campus topic—"remember the night he . . ." and on and on it went . . . Lots of absences from class when the team took off for New York and the NCAA tournament.

Little Man on Campus gained popularity when he pictured a prof saying "And this is the most important class you'll have . . ." . . . Everyone settled into a routine and the lucky ones went to the Lair for coffee—even at the expense of a cut in their 10 o'clock classes. We dug in—or dug out—for the winter and Fraternity row climbed to the hill for a snowball battle as "big men on campus" became little boys again.

The Stewarts threw a tomato juice cocktail party for campus leaders and foreign students . . . a music major and a student from Formosa discussed classical versus jazz and others got free Spanish lessons.

A professor commented: "No one here won the new Ford—anyway, where would he park it?" Then the Attorney general clarified the rules and the campus theme song became "Oh where can I park my car? Anywhere!" . . . University Senate took no action so the Council of Administration did and Mr. Gluck became a parking court judge and complained that someone was even parking in his space on a private lot.

Courtesy weeks or "hell weeks" began and ended with big brothers giving up their pins for a few weeks . . . The Sig Ep door got painted white and the Delt rock red, and class became a place to catch up on sleep missed the night before.

Bad cases of senioritus and spring fever and an epidemic of measles hit the campus with the warm weather late in February . . . Couples began to sit on porches and the wall in front of the library and more customers descended on Jimmies and the Spudnut Shop . . . there was a demand for ice cream at the dairy in Olgebay and the clocks went crazy in Armstrong Hall . . . A few brave ones spent the afternoons at Cheat watching the lake and dancing . . . Golddiggers Ball and a leap year TWERP week added to the fun . . . and there was always someone practicing softball in front of the Armory.

New interests took over—the Jewish girls formed a local sorority, Mu Omega Tau, and Mountainlair started a Military Marriage class . . . Life Week brought Benjamin Reist to the students to discuss "Who am I" and in the interest of intellectual stimulation the 'Lair started a series of Sunday afternoon seminars and co-sponsored with Mortar Board the lecture series by professors on "if this were the last lecture I should ever give . . ." Organizations contributed toward a University scholarship for a student from another country . . . Fraternity competition for the all-year-cup became tougher.

Twenty schools sent representatives here for the debates and high schoolers took over as tourney weekend approached . . . Tex Beneke and Les Elgart came and Mountainlair was filled with rustling dresses and complaints about the "no tables" rule.

Fi Batar Minstrel was presented and warnings were heard that you better go the first night because they might not be allowed to present it twice . . . DG's won the traveling trophy from Sphinx at the talent show and the Sigma Chi's danced into first again . . . Students and town turned out and filled the field house for the Don Cossack chorus . . . a class took up a collection to buy an alarm clock for a fellow that slept through his eight o'clock.

AWS took heart and gave the frosh women 9 o'clock permission each night abolishing the old 7:30 code . . . Seniors got measured for caps and gowns and ordered announcements . . . We went to bed to dream of Cheat and woke up to find the ground covered with snow and cold weather seemed to be here to stay . . . Spring brought student government elections and controversy over proportional representation and campus service planks . . . Interest lagged and it seemed to line up as straight ticket voting . . . Student Party brought out Athenaeum competition with the *Daily Adenoid*.

Mid-semesters again and everyone looked forward to that week of Easter freedom . . . And April brought the promise of a Spring Spree with a field day of crazy contests and permission to wear Bermudas.

Following Easter there was a general movement toward Jackson's Mill and Leadership Conference as the leaders decided what they'd do with the students next year . . . New officers moved in and seniors moved out and the strange feeling of no activities became a happy one.

Spring formals and picnics and more students seemed to gaze out the windows than ever before . . . Song practice reached a peak as Sing competition drew near . . . and all the women gave thanks to Panhellenic for the bright blue robes that ended the fashion feud . . . Parents covered the campus and girls were awakened early in the morning by someone saying, "You are being tapped . . ." and Link Day became a day to remember forever . . . It became a tradition to sing the Alma Mater and it was never more inspiring.

It was almost over as work finished up and seniors prepared for the few finals they had and took off for a vacation or home and Senior Week while underclassmen seethed with envy.

Then it was graduation and they lined up on Woodburn Circle to go to the Field House to hear Dr. Lawrence Stell give the baccalaureate address . . . but even those eager to be out will remember the little things that made up their four years at West Virginia University . . .

Things like waiting at the mailbox to meet that special someone . . . memories of rainy mornings when it seemed you couldn't take Morgantown weather another day . . . a picture of High Street with the sidewalks rolled up for the night . . . and the inviting odor as you strolled by the Spudnut Shop . . . Life in the dorm and frat houses . . . or the night your roommate got thrown in the shower for getting pinned . . . hearing the Alma Mater at football games and the pleasure of seeing the blue flag fly over the Armory . . . Birthday dinners . . . and long lines at the bookstore . . . going to Blue's for a shoeshine . . . flipping cards for the Spiriteers or watching Hot Rod shoot from one knee . . . The sound of chimes from the Ad Building or the blast of the Mountaineer's rifle . . . and that enlightening day when you discovered one of your professors was human too . . . all a part of this year at WVU.

PRESIDENT

IRVIN STEWART

The real test of your years in the University lies ahead. College has opened many doors for you. How far you go down the corridor of your interest rests largely with you. Stagnation is the alternative to further educational progress—progress for which you must supply the motivation and the discipline.

Leaders are needed in all walks of life, in all arenas of activity. Your college education is an important step in preparation for leadership. Seek out your apprenticeship: grow into leadership.

I am confident that you will respond to your opportunities and continue to develop. In so doing you will best repay those who made your college education possible.

GOVERNOR

WILLIAM C. MARLAND

As Governor of the State of West Virginia, and particularly as a former student at West Virginia University, I consider it a distinct honor to greet the men and women of West Virginia University through the medium of the MONTICOLA.

Especially am I glad to have the opportunity to offer my best wishes to the Class of 1956. You will carry into the business and professional world that wisdom and knowledge you have assimilated through the training, wise counsel and academic guidance of West Virginia University's teaching staff. You will, just as I do, experience a deep feeling of appreciation for the many good things acquired from your years of study in Morgantown. Too, the friendship of so many of your fellow students will be infinitely cherished and warmly harbored.

To you, who will return for future study at our University in quest of additional knowledge that will make you FULL MEN, I respectfully urge that you take advantage of all that West Virginia University has to offer. In a relatively short time, with hard study, you will have earned a license to lead others—indeed it is your duty—in public or private enterprise.

All of you are sons and daughters of a great institution. Be proud of it, and use your minds wisely and judiciously.

All these had a part in producing the 1956 MONTICOLA . . . they did it for you . . . and they had fun doing it!

WORK? NO, I JUST CAN'T DO ANY MORE WORK—Pictured in the act of either entering or leaving (you figure out which) the MONTICOLA office is our amiable assistant editor, Ed Galligan. Ed seems to be running from something. Perhaps our editor, lovable Kay Rice, has cracked the whip again.

PATTERN FOR CONFUSION—It hardly seems possible that anyone in this picture could be accomplishing anything but it is from scenes like this that the book you now hold in your hands, the 1956 MONTICOLA, resulted.

THE KICKOFF TO ANOTHER GREAT SEASON. With the flip of the coin the Mountaineers were off to another great football season. 1955 was a season of disappointment and heartbreak in many ways but despite all, the Mountaineers turned in another sterling football record.

Tom Domen (on ground) and Bob Guenther watch the action in the third quarter of the game at Mountaineer Field. WVU spurted in the second half to totally outclass the Spiders in the season's opener, 33-12.

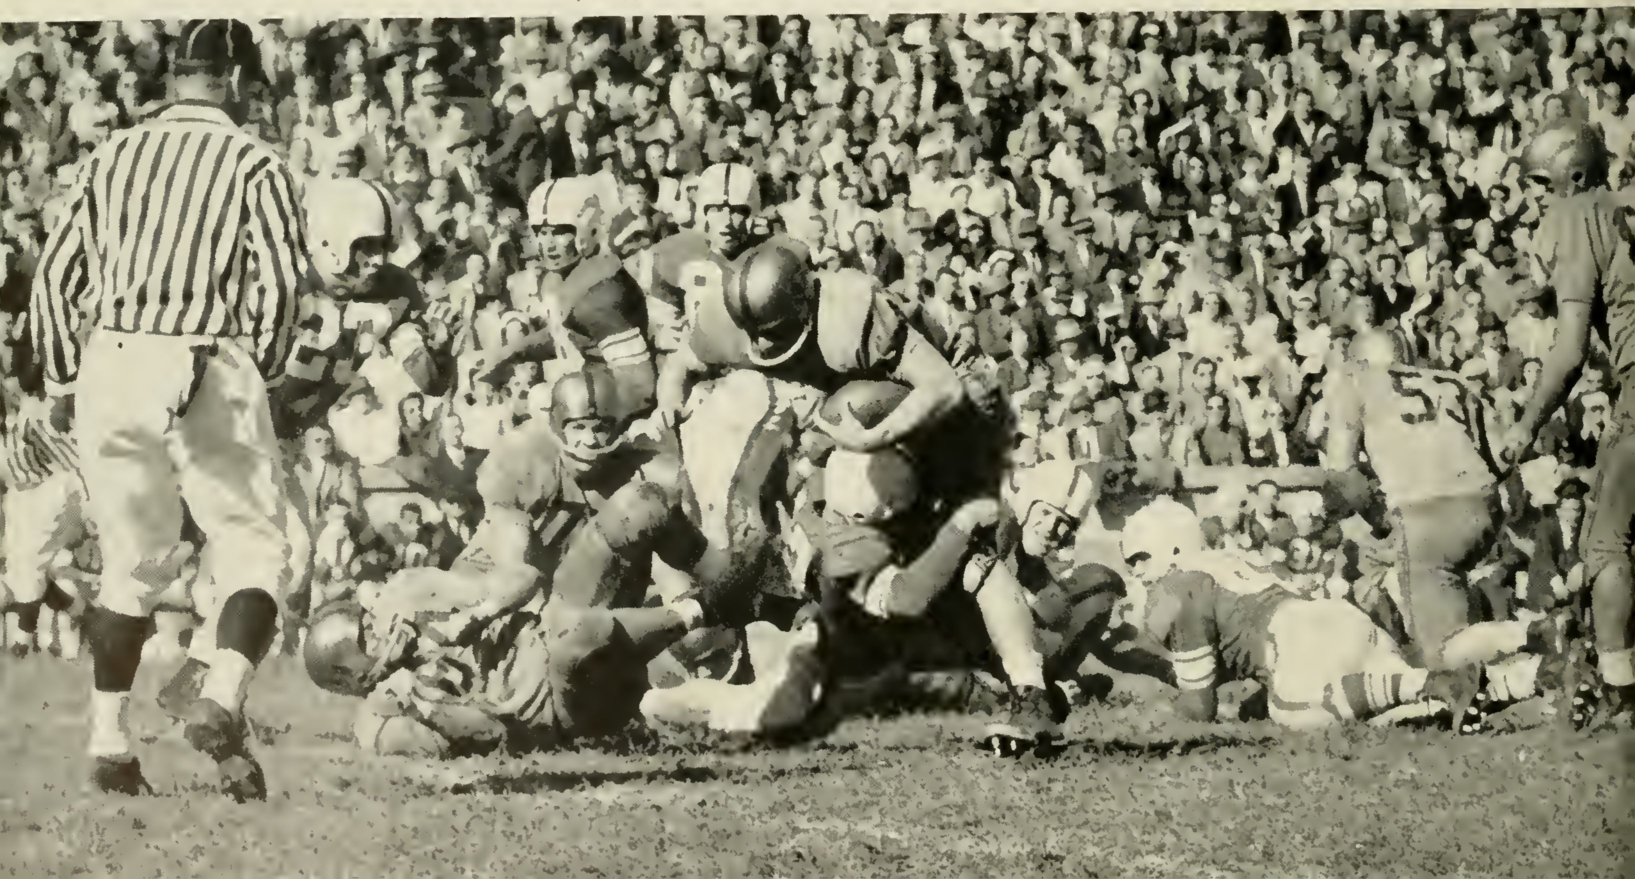
AH, COME ON! LET GO OF MY LEG. Joe Marconi, Mountaineer right halfback, finds a hole and drives through the State line for good yardage. Gene Lathey (64), Bruce Bosley (77), Ron Klim (53) and Joe Papetti (85) are all visable for the Mountaineers.



"BARBARIC GOLIATHS DRAGGING ONE OF OUR POOR DEFENSELESS WARRIORS TO THE SOGGY GROUND"—We were growing frantic for a picture of the Marquette game when we wrote to the *Marquette Tribune* (Student Newspaper). They sent us the picture and also contributed the cutline. Since our yearbook uses names, the victim of the "goliaths" is sophomore halfback Bob Neuman. Gene Lathey (64) is the Mountaineer on the ground. The big, brawney taped hand around Neuman could belong to anyone but our guess is Chuck Howley.

The Mountaineers eked out the win but only after 60 minutes of real effort.

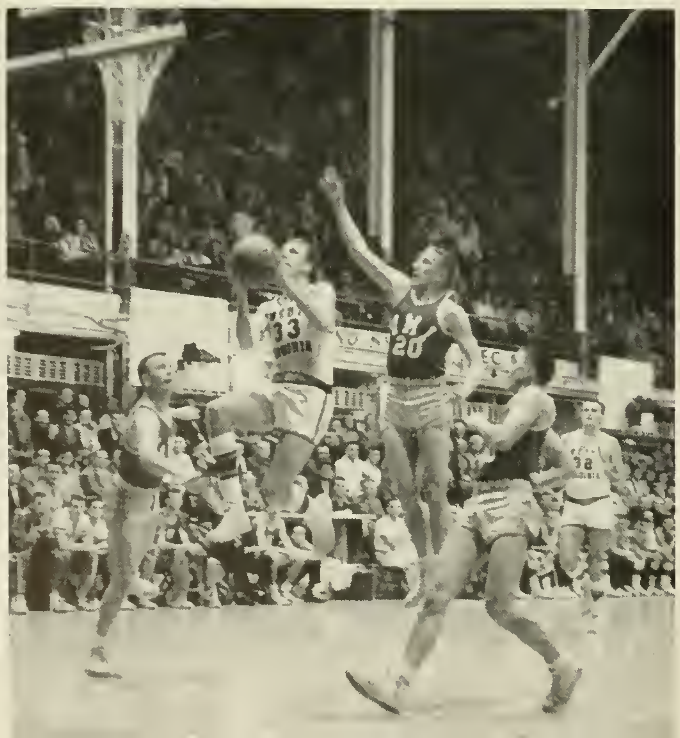
PULL IT DOWN, HOT ROD! Paul Whitting and Willie Bergines watch from the corner as "the Rod" goes high for a rebound. Clayce Kishbaugh stands by ready to help. West Virginia won this opening game of the '55-'56 season but lost the rematch in the Smokey City.

IF YOU EVER WENT IN BALL, GO IN NOW. Rod Hundley appears to be pleading with the ball to go in as he lays it up in this game against VMI. The Mountaineers were 89-65 victors in the Field House action.



THAT'S RIGHT, IN THE SECOND HALF WE'LL WATCH THIS MAN CUTTING THIS WAY. Coach Fred Schaus discusses strategy with his team before it takes the floor for the second half against VMI. Trainer Whitey Gwynne and Sports Publicity Director Rene Henry talk over first half action at the right.

A REVIEW OF 1956 BASKETBALL SEASON

Rod Hundley sinks the first shot of the 1955-56 season in Field House opener against Carnegie Tech to set the stage for a successful season for the Mountaineers . . . Hundley treats fans to real first night show as Carnegie Tech is the first of the Mountaineer victims . . . 14 point victory over Furman and Darrell Floyd follows . . . Floyd wins first scoring match with Hundley . . . Mountaineers then edge strong Washington and Lee team . . . first loss of the season is at the hands of ever-powerful George Washington . . . Rod scores 40 in defeat.

North Carolina State, one of the nation's top-ranked teams, follows suit and dumps the Mountaineers for the second straight time . . . 92-71 . . . Conference rival Richmond visits the Field

WATCH HIM! HE'S LIABLE TO MAKE IT DISAPPEAR COMPLETELY. West Virginia's big number "33" begins the clowning that has made him known in basketball circles. Richmond captain Ed Harrison (back) cautions a teammate to be careful of the tricky Hot Rod. The Mountaineers rolled over the Spiders in this game at the Field House but lost the return match in Richmond.

A STUDY IN GAPING MOUTHS. Here is a unique picture of a basketball game in which all of the players are caught with their mouths "wide open." In fact, everyone in this picture seems to have his mouth open. Hundley is at the line, Whitting is first on the left of the lane and Don Eddy studies the whole situation from the rear of the foul circle.

House and tastes the sting of Mountaineer revenge . . . WVU victory is by 15 points.

Mountaineers win Orange Bowl tournament in Miami . . . victories are over Florida State, Columbia and Miami . . . Hundley hits season's low against Florida State: 7 points . . . Sharrar takes over the scoring load . . . Bergines is sharp defensively . . . Kishbaugh breaks ankle.

Team begins 1956 with repeat victory over Washington and Lee . . . Moving to Philadelphia, Mountaineers lose two in as many nights . . . Hundley misses two free throws in closing seconds to give Villanova one point victory . . . LaSalle throughly spanks West Virginians the following night.

A victory over VMI follows disastrous Philadelphia trip . . . Carnegie Tech injects salt into wound with victory in return match, 68-66 . . . Penn State falls victim to Mountaineer fast break in Field House encounter, 81-79 . . . Victory over Pitt in the Smokey City is sweet . . . Rod clowns, paces Mountaineers to 14 point victory with 29 points.

Return match with Furman spells another win but Floyd again bests Hundley . . . Rod gets 35—Darrell hits for 40 . . . Hit hundred mark for the first time with impressive win over VMI, 103-68 . . . Richmond return match is not quite so sweet . . .

SIGN MINE NEXT, WILL'YA HOT ROD? Surrounded by a compliment of his fans, Hot Rod Hundley, basketball's "clown prince," attempts to satisfy his always-raving public—the kids.

Spiders end up on long end of the score . . . After leading for much of the game, WVU blows to Memphis State, nationally ranked power . . . 84-69 . . . Breaks the "jinx" at State College, Pa. winning over Penn State . . . Twenty-two point spread in our favor is the result of the second match with Virginia Tech.

Rod gets hot, hits for 38, as team hits century mark for the second time . . . win 105-90 over William and Mary . . . Madison Square Garden sees Rod and the Mountaineers at their best . . . Hot Rodney pumps in half of his shots, ends night with 40 points . . . St. Johns' is the Garden victim . . . Field House return aaginst William and Mary is successful as Rod continues blistering scoring pace, adding 31 more to his record total . . . Pitt closes the season on a sour note as they inject defeat . . . game might be termed season's fiasco . . . Hundley has 31 at halftime—looks cinch to break the Field House record . . . only gets nine in the second half for a not-so-bad 40 points and the third time this season that Rod has hit 40.

Bouncing back from demoralizing Pitt defeat, Mountaineers spurt to win the Southern Conference Tournament for the second year in a row . . . Hundley repeats on all-tournament team, most valuable player . . . Whitting, Bergines make second team all-tourney . . . first game is almost the only one as upset-minded Davidson throws a scare into the Mountaineers, 59-53 . . . Furman loses its third of the season to the Gold and Blue but the margin is again narrow . . . Rod hits for season's high of 42 points, outscores Floyd by 11 . . . just misses breaking the single game scoring record set by Floyd in Furman's first game . . . Into the finals against a Richmond team that hasn't lost on their home floor for four years . . . Mountaineers turn the trick by but one bucket, 58-56 . . . Rod adds 26 more to his three-game total, misses record by three.

Moving to the Garden for the second time in the season, the Mountaineers square off against Darmouth, the Ivy League champion in the first round of the NCAA tournament . . . The Ivy Leaguers play like they're trying to grow ivy by "planting" them and refusing to move with the game in its closing seconds . . . one last shot misses and the game goes into overtime, the Mountaineers first overtime battle of the season . . . again the Darmouth "ice cubes" hold the ball . . . this time the strategy works and the Mountaineers are eliminated, 61-59.

21-9 is season's final record . . . Whitting, Mullins and Bergines graduating seniors and tri-captains all do a fine job . . .
WVU Basketball looks to 1956-57 season and continued success.

WE'VE GOT OUR "ARMS CROSSED"—Willie Bergines of the Mountaineers jumps against Lee Marshall of the Generals in the first period of the return game against Washington and Lee. The Mountaineers beat the highly-regarded Generals in both encounters.

FURMAN

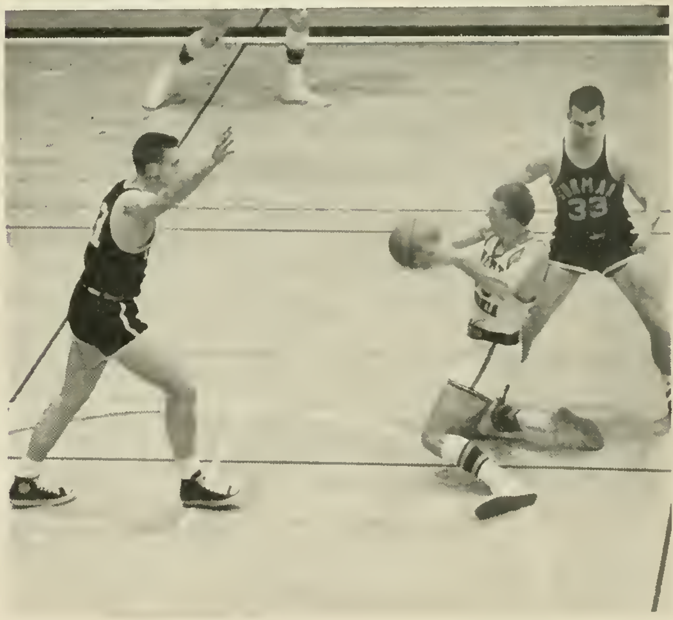
LET'S GO MEN—WE CAN BEAT FURMAN. Rod Hundley seems to be leading the crowd in a cheer as he attempts to snag a rebound against the Paladians. Lloyd Sharrar appears to have the ball in control, sitting on the top of his fist. Bergines (in the background) keeps one eye on Furman's high scoring whiz, Darrell Floyd (extreme right of picture).

COME ON FELLOWS, LET'S PLAY GAMES. Hot Rod Hundley is on the floor again. This time, he's working on the tempers of Furman's Darell Floyd and one of his teammates. Repeats of scenes like this are what make the "Hot Rod" one of the nation's number one basketball players.



HAIL TO THE CHAMPIONS! Here are the West Virginia University baseballers who annexed the Southern Conference Baseball crown to complete the Mountaineers three-sports sweep. First Row: Don Firestone, Christy Kaltnecker, John Baliker, Ed Lenhart and Jim Dayoob. Second Row: Jim Baliker, Rod Shafer, Ronny LaNeve, Jim Heise, Vic Rabbits and Tom Cook. 1956 Monticola
West Virginia University
Morgantown
West Virginia

Dear Kay:

Making people laugh is a hard job. But not as difficult as it is to select the 1956 Monticola Queen and her court. Not when you have before you twenty photos of lovely ladies--and they're the best kind.

But since I am stuck with this impossible job, I am making these selections, and only because I wss limited to one Miss Monticola and four members of her court.

Susan Rhodes is my choice for Miss Monticola. My selection for her court includes Susan Mudge, Sandra Brown, Janice Sickle and Virginis Greer.

Please extend my best wishes to the winners and to all the lovely candidates.

Your friend,

Lonesome George

Ezra T. Benson a strong new vote of confidence yesterday after he and other cabinet members met formally with President Eisenhower for the first time since last summer.

The White House also announced that Eisenhower had accepted the resignation of Assistant Commerce Secretary Lothair Teetor, a top official of the strike-torn Perfect Circle Corp.

The President named as Teetor's successor Frederick Henry Mueller, Grand Rapids, Mich., a Republican and general partner of a furniture company. Mueller was 62 years old yesterday.

Engineering, Agriculture Scheduled for Expansion

University officials are making preparations to apply to the 1956 State Legislature for necessary funds to construct new colleges of Engineering and agriculture on the Evansdale campus.

President Stewart said in a news release yesterday that long-range plans of the University include the building of these projects "when sufficient money is available."

"We hope to get the money from the next session of the State Legislature" for the twin project, Stewart said

WASHINGTON UP—Republican conservatives are discussing ways to keep the 1956 contest for the GOP presidential nomination wide open until President Eisenhower announces his political plans.

A highly-placed Republican said he knows the subject is being quietly discussed. But he said sponsors of the plan are wary of launching an organized drive as long as they think there is a chance Mr. Eisenhower might seek a second term.

If the President should decide against running, some Republicans, including Senate GOP Leader William F. Knowland of California, probably would enter several presidential primaries next spring as "favorite son" candidates.

Bloc Could Be Formed

If reasonably successful, these candidates from the so-called "Taft wing" could enter the GOP nominating convention in San Francisco next August with a sizeable bloc of delegates

Knowland and several others have publicly suggested that Eisenhower announce his 1956 plans early enough to give other potential candidates time for a pre-convention campaign if he decides not to run.

On the other hand, all-out Eisenhower backers have insisted that no pressure be put on the President for an early decision. There has been renewed hope among them that Eisenhower, recovering nicely from his heart attack, will decide to run again.

The purpose of the Pershing Rifles is to foster the highest ideals of military leadership and to provide recognition of military ability among the basic course students in Army and Air Force ROTC.

Pershing Rifles was formed in 1892 at the University of Nebraska by then Lt. John Pershing, an infantry instructor for the Nebraska military training regiment. Lt. John Pershing became famous as General Pershing.

Lieutenant Pershing drilled pre-

to make preparations for farming.

Under the teachings of a friendly tribe of Indians, they learned how to cultivate the soil more effectively. Finally the spring of 1621 came and the seed was sown. The Pilgrims lives depended on the autumn harvest and they all prayed for a successful crop.

Plots Blessed by God

Days flew by and then autumn came. Spread before the Pilgrims was nature's treasure from the soil. Their little plots had been blessed by the hand of God.

The task of harvesting the crops was at hand. Once again everyone cooperated and did the job which had to be done.

ADVERTISEMENTS

In Appreciation

The staff of the 1956 MONTICOLA welcomes each of the advertisers who appear on the following pages. When a college yearbook must be financed entirely by revenue derived from subscriptions and space sales, their friendship becomes a necessity as well as a pleasure.

The MONTICOLA is proud to be able to bring the message of these business firms to West Virginia University students who will soon be among the best customers anywhere.

May the appearance of these fine business firms represented on our advertising pages become as traditional as the MONTICOLA itself.

"I pledge
allegiance to the flag
of the United States
of America and to
the Republic for which
it stands, one nation,
under God,
indivisible, with Liberty
and Justice for all"

The words "UNDER GOD" were added to the Pledge of Allegiance to the Flag by joint Congressional Resolution, in June 1954. Said President Eisenhower: "From this day forward, the millions of our school children will daily proclaim in every city and town, every village and rural school house, the dedication of our nation and our people to the Almighty . . ." The Pledge of Allegiance was originally written in 1892 by the Rev. Francis Bellamy of Rome, N.Y. He was then an editor of the magazine "The Youth's Companion."

Informal training sessions like this—as well as more formal ones—are being scheduled constantly for telephone people. Classes are held on all aspects of the business. They are designed to help prepare employees for better jobs ahead.

Learning Never Stops Among Telephone People

Ever since the first telephone was installed in West Virginia 75 years ago, your telephone company has been growing constantly. And telephone people have been growing, too. They never stop learning how to serve customers better.

This emphasis on learning is important to telephone people as well as their customers. Executives of your telephone company, traditionally, have learned and earned their way to the top. Invariably, executive positions go to people inside the company who merit a chance for greater responsibility.

The assurance of recognition for superior performance in individual jobs keeps the management of your telephone company young and progressive in spirit. It keeps all telephone people alert to the changing needs and desires of the customers they serve.

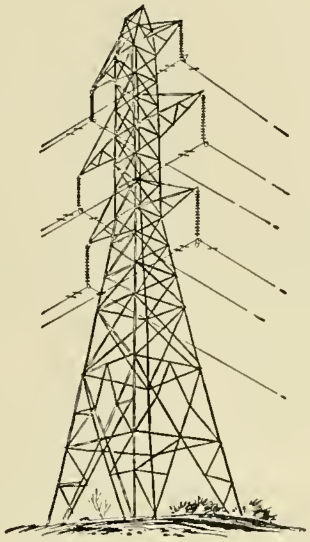
Symbol of Progress



The familiar electric transmission TOWER is a symbol of PROGRESS to all. We know ELECTRICITY helps make towns grow—helps power industry—helps create new opportunities—and increases individual living standards. It's one thing everybody needs and uses.

Without adequate electric power, progress in America would be at a standstill and the way of life we enjoy could not exist. What could be worse?

Yes, that familiar electric TOWER—like West Virginia University—truly is another symbol of PROGRESS.

Modern family minus electricity

What would you do without low-price electricity in your home? Well—you could use candles. And build fires. And substitute elbow-grease for all the jobs electricity does automatically. If you *did*, you would be reminded quickly—and forcefully—how much electricity does for so little cost.

Electricity is the biggest bargain in your family budget. What *else* gives you such value in comfort, health, ease and fun?

Keeping electricity high in usefulness, low in price is the main job of independent electric companies like this one.
